

TOBY JOHNSON.

MOTION, 3D, GRAPHIC & CREATIVE TECHNOLOGY

Multidisciplinary designer working across motion, graphic design, 3D and creative technology. For **8+ years** I've developed visual identities and carried them through campaign artwork, films, social content, visualisers, packaging, websites and digital products. Used to working at pace within creative teams, taking work from early idea to delivery and building practical systems that make production smoother without removing creative judgement.
